To Whom It May Concern: I read in the Beaufort Gazette this morning that there is a public hearing regarding the recent rate increase for SCE&G and I just have to say that I believe it is ludicrous to consider any additional rate increases in this current economic environment. My household has reduced our electric consumption from the same period as last year, yet are still paying more due to other rates increases that have been approved. We are doing everything we can to reduce our expenses, but seem to be getting nowhere. Another rate increase is simply beyond my comprehension at this time.
